CMCorrugated Crack [Mac/Win]

CMCorrugated is a typeface designed by the creative team at the Microsoft Glyph Design Group. It is an alternate to the Corrugated font family. CMCorrugated is available for both commercial and personal use. CMCorrugated features an aggressive, black-letter serif that is used in place of the larger, heavier and more traditional serifs found on many typefaces. CMCorrugated is suitable for advertising, poster, editorial and magazines. CMCorrugated is a hybrid-style typeface featuring the functional features of serif and sans-serif fonts. It has a small x-height and a very thick lowercase 'g' with a large descender. It also has a very narrow tracking and a unique crossbar on top of the capital 'I'. CMCorrugated is well suited for displaying information where its over-riding feature is typography and its narrow width is perfect for small body text. Included in CMCorrugated is many styles, including regular, narrow, condensed, bold, heavy and italic. CMCorrugated is installed to use without any additional software on Windows XP, Windows Vista and Windows 7.
